Artist at work in Frankfort. Public art programs can enrich a community when a coordinated program is in place that honors the historic built environment and promotes its unique history through the arts. Frankfort did the hard work it requires for success and it seems to be paying off.

The newest Main Street America member publication, *The Future of Retail: Creative Approaches to Place-Based Entrepreneurship*, is out now! Download it here <http://ow.ly/MFad50xakdn> As trends suggest a long-term shift away from traditional bricks-and-mortar retail, Main Streets will need to continue to find new ways to draw people downtown. This new guide provides a roadmap for Main Streets to adapt to the evolving retail landscape and includes an audit tool you can use to ensure your downtown is positioned to thrive. Please note this guide is only available to Main Street America members.

We enjoyed a visit last week from Pikeville Main Street director, Minta Trimble. We looked at the new work sheet plans. She was excited about being able to share with her board how they can see their work all in one place and how all the 4 points work together.

Did you know there are more than 30 million small businesses in the United States? Many were in Main Street communities! Here's another amazing stat: small businesses created 65 percent of all new jobs since 2010. Behind those numbers are entrepreneurs who pursued their dreams of business ownership and turned them into a reality -- strengthening communities and America's economy. During National Entrepreneurship Month this November, we're celebrating the hardworking, creative and driven women and men who took the plunge into small business ownership. Courtesy of SBA

This is such a great idea for the holidays and every day that helps bring attention to both the artist and the vacant building. The city of Durango Creative Economy Commission, BID & their creative district worked on a project to fill empty storefronts with art.

Holiday events bring communities of all ages together. It is thanks to a lot of hard work by many that make these things happen. KYMS thanks everyone who helps make every day special in their communities.
